PUPPY - LARGE BREED

SALMON

WITH SWEET POTATO & VEGETABLES

FRESHLY PREPARED SALMON

The finest Freshly Prepared salmon is cooked at a gentle 82 degrees to protect the valuable protein, increase the digestibility and enhance the flavours.

Salmon is naturally rich in omega 3 essential fatty acids which have anti-inflammatory properties and provide support for skin and coat condition and joint health.

VEGETABLES

Carrots are a good source of Vitamin A which may help support eye health and vision. Peas are rich in vitamin K which plays a role in heart health, bone density and dental health.

Important: The information provided in this document is GA Pet Food Partners Ltd interpretation of Regulation No 767/2009 including amending Regulations 2017/2279 and 2018/1903. As with all legislation only courts can decide on the correct interpretation of the law. We would advise that you always seek legal advice when creating/printing new packaging, leaflets or websites. The statutory Analytical Constituents declaration parameters (i.e. Crude Protein, Crude Fat, Crude Fibre, Crude Ash) may be used for declaration purposes along with Moisture. Other parameters are intended as a guide and in order to declare extra figures we suggest that analysis work is carried out to confirm levels more precisely. Formulation updates: As information becomes available and in order to continually meet statutory analytical constituent declarations, formulations may have to be adapted to account for raw material variation and availability. There may also be other reasons outside of our immediate control (including but not limited to force majeure events) which warrant the change of a formulation to improve its suitability.
