PKG

CHICKEN
WITH FISH & RICE

KITTEN

WHY CHICKEN?

Chicken is a lean protein source rich in essential amino acids. It is also a good source of vitamins & minerals including B vitamins and iron which may help contribute to overall health and well-being.

RECIPE CLAIMS

40% TOTAL CHICKEN & FISH
Rich in essential amino acids, vitamins & minerals to help support healthy muscle growth.

HEALTHY DIGESTION
Pre-biotics MOS and FOS which help to promote the growth of healthy gut bacteria and support digestion in kittens.

IMMUNE SYSTEM SUPPORT
With added vitamin E to help support the immune function.

MULTIPLE PROTEIN SOURCES
Exposure to multiple protein sources as kittens may decrease potential intolerances in adult cats.

HEALTHY HEART & VISION
With added taurine and vitamin A to nourish the heart and help maintain vision.

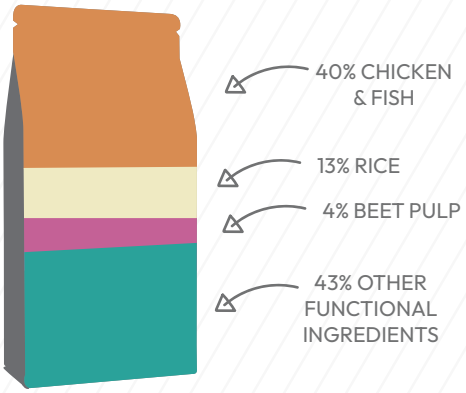

HEALTHY SKIN & COAT
Contains omega 3 essential fatty acids to promote healthy skin and a soft & shiny coat.

Super PREMIUM

The Super Premium range benefits from a variety of high quality protein sources. The range provides a selection of recipes formulated to meet the specific needs of kittens and cats.

4 - 5kg	55 - 65g	65 - 80g	85 - 70g	70g - Adult
5 - 6kg	65 - 70g	80 - 90g	95 - 85g	85g - Adult

*Based on NRC recommendations of an adult cat. All cats are different and the guidelines should be adapted to take into account breed, age, temperament and activity level of the individual cat. When changing foods please introduce gradually over a period of two weeks.
Always ensure that fresh, clean water is available.

Important: The information provided in this document is GA Pet Food Partners Ltd interpretation of Regulation No 767/2009 including amending Regulations 2017/2279 and 2018/1903. As with all legislation only courts can decide on the correct interpretation of the law. We would advise that you always seek legal advice when creating/printing new packaging, leaflets or websites. The statutory Analytical Constituents declaration parameters (i.e. Crude Protein, Crude Fat, Crude Fibre, Crude Ash) may be used for declaration purposes along with Moisture. Other parameters are intended as a guide and in order to declare extra figures we suggest that analysis work is carried out to confirm levels more precisely. Formulation updates: As information becomes available and in order to continually meet statutory analytical constituent declarations, formulations may have to be adapted to account for raw material variation and availability. There may also be other reasons outside of our immediate control (including but not limited to force majeure events) which warrant the change of a formulation to improve its suitability.
