SUPERFOOD BLEND
A blend of 5 carefully selected superfoods each with their own benefits.

RESPONSIBLY SOURCED BRITISH TURKEY

The responsibly sourced turkeys in your recipe are kept at lower densities in the barn with access to daylight and fresh air. They grow more slowly, meaning they have more flavour, more muscle fat, and a better, firmer meat texture.

The turkeys are a lean protein source rich in essential amino acids, low in fat and a good source of essential nutrients such as riboflavin, potassium and selenium.

SUPERFOODS

PARSLEY: Source of Vitamin K which has a role in calcium metabolism to help maintain healthy bones.

ZUCCHINI: Source of Vitamin B3 an important cofactor in carbohydrate, protein and fat metabolism

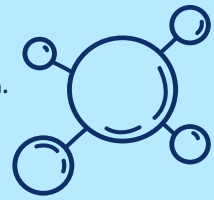

PAPAYA: A good source of Vitamin C known for it's antioxidant properties which may help support the immune system.

PUMPKIN: Source of Vitamin A to help maintain healthy vision.

NETTLE: Source of Iron to help support normal functions of the circulatory system.

NATURALLY OCCURRING COLLAGEN

Your 35% Minimum Freshly Prepared Responsibly Sourced British Turkey has naturally occurring Collagen.

- Naturally occurring collagen is found in freshly prepared ingredients
- Provides important building blocks for the body
- Helps maintain healthy bones, joints and skin

* All dogs are different and the guidelines should be adapted to take into account breed, age, temperament and activity level of the individual dog. When changing foods please introduce gradually over a period of two weeks. Always ensure fresh, clean water is available.

Your Superfood 65 recipe has an 18 month shelf life. A selection of bags are available to meet your customer's needs. Please refer to the Partner Portal for more details or contact your account manager. Bag images shown for illustrative purposes only.

Important: The information provided in this document is GA Pet Food Partners Ltd interpretation of Regulation No 767/2009 including amending Regulations 2017/2279 and 2018/1903.

As with all legislation only courts can decide on the correct interpretation of the law. We would advise that you always seek legal advice when creating/printing new packaging, leaflets or websites. The statutory Analytical Constituents declaration parameters (i.e. Crude Protein, Crude Fat, Crude Fibre, Crude Ash) may be used for declaration purposes along with Moisture. Other parameters are intended as a guide and in order to declare extra figures we suggest that analysis work is carried out to confirm levels more precisely.

Formulation updates: As information becomes available and in order to continually meet statutory analytical constituent declarations, formulations may have to be adapted to account for raw material variation and availability. There may also be other reasons outside of our immediate control (including but not limited to force majeure events) which warrant the change of a formulation to improve its suitability.
